Europriacy and Interprivacy certification by Resillion

3 March 2026

Table of content

1. Certification schemes
2. Scope / types of data processing activities supported
3. Our locations
4. Certification assessment process
5. Decision process
6. Use of name, logo, mark of conformity
7. Rules for maintaining, extending or reducing the scope
8. Rules for termination, suspension and withdrawal
9. Complaints and appeal
10. Contact details, privacy policy, impartiality policy

Certification schemes

Resillion operates two certification schemes for data protection:

Europrivacy

- <https://europrivacy.org/>
- Scheme owner is ECCP
- Applicant must be a legal entity within EU/EEA, future potential to extend to more countries
- Official European data protection seal regulated by GDPR

Interprivacy

- <https://interprivacy.org/>
- Scheme owner is ECCP
- Applicant can be a legal entity outside EU/EEA
- No GDPR legal effect, not subject to GDPR rules and restrictions
- Assessment methodology is almost the same as Europrivacy

Scope / types of data processing activities supported

Target of evaluation

- Websites
- Video cameras and audio monitoring
- Internet of things and smart cities
- Biometric, medical and health data
- Automated decision making
- Blockchain and distributed ledger technologies
- Artificial intelligence and data analytics
- Connected vehicles
- Smart grid and metering

Industry sector

- Automotive
- Banking, financial services and insurance
- Energy and utilities
- Consumer electronics
- Information technologies
- Government and public sector
- Media and telecommunications
- Retail and online shopping

Our certification service is not limited to the listed industry sectors. Contact us to learn more.

Our locations

Our global* network of experts work with local and remote customers. This allows us to tailor our services to the needs of each individual customer.

*Certification service contract will be with Resillion NL which will be accredited.

Certification assessment process

Our highly efficient process is designed to gather information from you at various stages. Findings are provided to you a teach stage.

Assessment criteria are pre-defined in ECCP's official P, G,N, C, T, S Checklists.

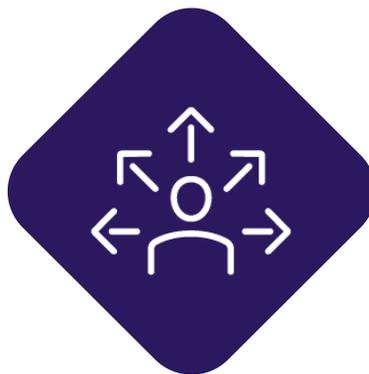

Assessment Criteria

- P - Policy
- G - GDPR Core
- N - National
- C – Complementary
- T – Technical
- S - Surveillance

Decision process

After the auditor(s) and technical expert(s) have completed the assessment, all records are then sent to the reviewer and decision maker to confirm the final decision.

For Europrivacy, we will have to inform your supervisory authorities for them to exercise their corrective power (if applicable).

Lead auditor

Single point of contact for audit planning, audit, list of findings, decisions and change requests.

Technical expert

Assess the technical aspect of your target of evaluation, and also the technical and organisational measures.

Reviewer

Review the assessment, findings and recommendations by the auditor and technical expert, and grant the final decision.

Use of name, logo, mark of conformity

After you have successfully passed the certification, you will be provided with a collection of “Certification documents”:

- a certification (i.e. “Statement of conformity”)
- a “Logo for Certified applicants”
- a “Mark of conformity”

Certification documents can only be used when your certification status is valid. When used, you must:

- Provide clear information on the certification scheme and the target of evaluation
- Prevent any misleading communication regarding the scope of the certification
- Enable traceability back to the certification body and the ECCP official registry of certificates.

Misuse of certificate, mark or logo may result in corrective actions, suspension or termination of your certification, and potentially legal actions.

Full details are available in the ECCP Rules on the use of logos, certificates and marks of conformity.

Rules for maintaining, extending or reducing the scope

To maintain your certification, you will go through a 3-year cycle: You may request to extend or reduce your scope of certification. We will request you to amend and re-submit your application form, and we will advise you the possible outcomes such as additional evaluation (e.g. audits, evaluation, evidence).

To maintain your certification, you will go through a 3-year cycle:

Rules for termination, suspension and withdrawal

Resillion may terminate your certification if:

- Your certified data processing persistently or seriously fails to meet the certification requirements.
- Your unreasonable actions or inaction prevents surveillance or recertification audits to be performed.
- Violation of the terms and conditions.
- You are unable to resolve major NC within 1 month, or if the minor NCs are not rectified in the next audit.

You may voluntarily request a temporary suspension for up to 6 months or withdraw your certification. When suspended or withdrawn, your certification status becomes invalid, and you must stop using any euro privacy certificate, marks or logos.

Complaints and appeal

If you are unhappy about our service or decisions...

You can send an email to improvement@resillion.com and we will investigate following our [Complaint policy](#).
